MEOX[®]

ZHONGNAN INTELLIGENT EQUIPMENT

MEOX[®]

MEOX is a brand under Zhongnan Intelligent Equipment Co., Ltd. It is a series of "metal magic boxes" that use containers as carriers, introduce concepts such as modularization, intelligence, digitization, informatization, dual carbon, and environmental protection, and use design such as equipment integration, system modularization, and interface standardization to achieve efficient mobility and rapid deployment of applications.

As a standardized mobile carrier, with the continuous research and development and expansion of manufacturers including Zhongnan Intelligent Equipment Company, the current application of containers has expanded to fields such as electricity, energy, military, agriculture, construction, medical treatment, information technology, and ocean engineering. With its characteristics of flexibility, convenience, durability, and environmental protection, it has become a truly "metal magic box".

Zhongnan Intelligent Equipment Co., Ltd. can provide customers with solutions for transportation logistics, energy supply, data centers, environmental protection equipment, modular buildings, and many other special containers.

AS

Suzhou Zhongnan Intelligent Equipment Co., Ltd. not only has perfect manufacturing equipment, but also has a professional production team and design technicians to provide customers with high-quality and reliable equipment and services. The company has obtained multiple quality certification certificates (ISO Quality Management System Certificate and LR Factory Qualification Certification from British Classification Society). We focus on manufacturing a full range of container products, and can design multiple types of special containers according to the special requirements of enterprises and research institutions in various working conditions, providing comprehensive products and services. Suzhou Zhongnan Intelligent Equipment Co., Ltd. will gain recognition from the industry with integrity, strength, and product quality.
